RESERVOIR RIOTS.

The Paulding County Dynamiters are Doing Their Work in Sight of the Militia.

CINCINNATI, April 27.—News from the disturbance at the Paulding reservoir this morning indicate no material change in the situation. At last accounts there had been no conflict between the troops and the men engaged in destroying the public works.

The *Times-Star* special from the Paulding county, Ohio, disturbance, says: "The depredations of Monday night have continued on a smaller scale, almost under the noses of the militia. There are only three companies of militia, who have to guard several miles of the reservoir bank. The damage having been done, there is no apprehension of an outbreak until the work of repairing begins. To-day Chief Engineer Bostello arrived with Wm. Hahn, a member of the board of public works, joining Wm. Flickenger, who lives here. They will arrange for immediate repairs and will also proceed to ferret out the conspirators who wrecked the reservoir. An ex-member of the legislature is reported as siding in the destruction on Monday. It is doubtful if any one can be convicted in Paulding county."

A MEXICAN BONANZA.

A Party of Prospectors Find the Gold Fields of the Jesuit Fathers.

ST LOUIS, April 27.—A special dispatch from the City of Mexico, triumphantly announces the discovery of two of the seven lost Mexican bonanzas, by an American party of prospectors. They were worked up to the middle of the last century. The Indians then swept over Northern Mexico and all the miners were driven out, and all of the records lost. Recently Lieutenant Kipper, formerly of the United States army, W. K. Glenn, of Illinois; Capt. Allen, and J. McIntyre, of Chicago, went out on a surveying expedition in the interest of the Sanora land company and in an old chapel, found maps and other data. Search was begun and the great placer field has been located where the Jesuit fathers of 200 years ago found fortunes for the church.

ALL FOR THE ORPHANS.

A Great Meeting at Library Hall to Arrange for the Forthcoming Fair.

The four great Catholic congregations of this city were largely represented at Library hall last night. The assembly was called to organize for the forthcoming orphans' fair, and the best possible spirit prevailed. The work of the meeting was auspicious and can best be surmised in the selection of the following officers and general committee:

K. Baker, president.
H. C. Graffe, vice-president.
John B. Monning, secretary.
W. P. Breen, assistant secretary.
Joseph V. Fox, treasurer.

GENERAL COMMITTEE.

Stein, Jos. Loos, jr.

The work of arranging the select and sub committees now progresses and everything points to the most successful fair and festival ever recorded.

A happy feature is the liberal feeling bestowed on the project by non-Catholics and it shows they appreciate worthy charity whenever and wherever bestowed.

The Schnaebel's Affair

PARIS, April 27.—From the statement made here, it is believed that Germany desires to expedite an adjustment of the Schnaebel's affair and that arrangements are progressing favorably at Berlin, for a prompt and satisfactory settlement, which may render the dispatch of the German documents in the case to Paris unnecessary. There was a better feeling on the bourse at the close, in consequence of rumors that Prince Bismarck had consented to parole Schnaebel.

In affirming the decision of Mr. Samuel L. Morris, as special judge, in the Seavy-Shurick case, Judge Mitchell holds; "Clearing land in the absence of words of limitation, means removing therefrom all the timber of every size, but does not include taking out the stumps. The contract in this case in express terms and without any limitations required appellant to clear the land. Parol evidence was not admissible to prove a usage inconsistent with the express terms of the contract.

As a result of the conference held between General Superintendent Wade and General Passenger Agent Snow, of the Wabash, and Superintendent Brown, of the Michigan Central, at Toledo, it was decided to give the Wabash sleepers, which have heretofore been given to the Lake Shore at that point, to the Michigan Central. Under present arrangements the sleeping car from St. Louis over the Wabash will exchange there and go over the Michigan Central to Detroit, thence to New York via Niagara Falls. The sleeper from St. Louis to Boston will follow the same route as far as Niagara. It is understood that the cause of the change was a disposition on the part of the Lake Shore to discriminate against the Wabash wherever possible. The change in route will be a great accommodation to eastern travelers.

DECORATION DAY.

The Unique Order Issued for Observance by Commander-in-Chief Fairchild.

Sion S. Bass and Anthony Wayne posts, G. A. R., of this city, have received the following order outlining the observance of Decoration day, May 30:

NATIONAL HEADQUARTERS,
GRAND ARMY OF THE REPUBLIC,
MADISON, Wis., April 15, '87.

[General Orders No. 11.]

Nineteen years ago the then commander in-chief of the Grand Army of the Republic, in general orders, set apart the 30th day of May and suggested it be consecrated to the memory of the fallen soldiers of the nation.

This being the first memorial day occurring since his death, the commander-in-chief asks that the eloquent and appropriate words of general order No. 11, 1868, uttered by that illustrious soldier and beloved comrade, John A. Logan, be again taken as inspiration and guidance for the 30th day of May 1887.

HEADQUARTERS GRAND ARMY
OF THE REPUBLIC,
WASHINGTON, D. C., May 5, '68.

[General Orders No. 11.]

1. The 30th day of May, 1868, is designated for the purpose of strewing with flowers or otherwise decorating the graves of comrades who died in the defense of their country during the late rebellion, and whose bodies now lie in almost every city, village and hamlet churchyard in the land. In this observance no form of ceremony is prescribed, but posts and comrades will, in their own way, arrange such fitting services and testimonials of respect as circumstances may permit.

We are organized, comrades, as our regulations tell us, for the purpose; among other things, "of preserving and strengthening those kind and fraternal feelings which bound together the soldiers, sailors and marines who united to suppress the late rebellion." What can aid more to assure this result than cherishing tenderly the memory of our heroic dead, who made their breasts a barricade between our country and their foes? Their soldier lives were the reveille of freedom to a race in chains and their death the tatoo of the rebellious tyranny in arms. We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the nation can add to their adornment and security is but a fitting tribute to the memory of her slain defenders. Let no wanton foot tread rudely on such hallowed ground. Let pleasant paths invite the coming and going of reverent visitors and fond mourners. Let no vandalism or avarice or neglect, no ravages of time testify to the present or to the coming generations that we have forgotten as a people the cost of a free and undivided republic.

If other eyes grow dull and other hands slack, and other hearts cold in the solemn trust, ours shall keep it well as long as the light and warmth of life remain to us.

Let us, then, at the time appointed, gather around their sacred remains and garland the passionless mounds above them with the choicest flowers of spring time; let us raise above them the dear old flag they saved from dishonor; let us in this solemn presence renew our pledges to aid and assist those whom they have left among us a sacred charge upon a nation's gratitude—the soldier's and sailor's widow an orphan.

III. Department commanders will use every effort to make this order effective.

By command of John A. Logan Commander-in chief.

N. P. CHIPMAN, Adjutant General.

By command of Lucius Fairchild, Commander-in-chief.

E. B. GRAY, Adjutant General.

Late News About the Natural Gas Craze in Indiana.

Royal Centre is arranging to begin in a few days to sink a well.

Greencastle will begin to search for gas this week; also Salem.

Fort Wayne will have gas and the city should help to find it.

One of the of the Noblesville wells emits jets of oil occasionally.

Goshen has begun to dig for gas and expects to find it in a week.

The Pendleton well was "shot" Saturday night with good results.

Trenton rock has at length been found in the Bridgeport well. The unfruitful result was fully anticipated for some days. The Trenton at Bridgeport evidently lies in the gutter, and that is where the gas is not found.

At Portland, the Grand Rapids and Indiana railroad company has purchased additional ground. The new opera house, Odd Fellows' block and a business block, all under contract, will use one million brick. Dwellings are being built by the hundred.

The Standard Oil company perfected an organization under the laws of Indiana with a capital stock of $1,000,000, yesterday. The purpose of the organization is to pipe and furnish to citizens of Indianapolis natural gas for heating and manufacturing purposes.

The Wabash city council has appropriated $3,000 to aid in the investigation of natural gas territory. Wabash is thoroughly enthused on this question, and the failure of well No. 1 has only increased the interest. If gas is not found adjacent to the city a well will be sunk about twelve miles south of town, where there is a reasonable assurance of finding it, and a pipe line laid.

Can't Make Anything Like It.

I have been practicing medicine for twenty years, and have never been able to put up a vegitable compound that would, like Simmons Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead, of weakening) the digestive and assimilative powers of the system.

REPORT OF COMMITTEE ON FIRE.

To His Honor the Mayor and Common Council.

We your committee on fire to whom was referred the resolution of Councilman Racine for the location of a fire engine house site in the Ninth ward, respectfully report that we have carefully examined and considered the matter. We find that Ex-Mayor Zollinger frequently recommended a distribution of the fire department apparatus; likewise the chief of the fire department. Mayor Muhler made a similar recommendation in his last inaugural address. We believe the rapid growth of the city and the location of large manufactory establishments in the different wards of the city demand such distribution. We therefore report a resolution upon the subject and ask its passage, recommending that this committee and fire chief report to this council at its next meeting a proper location for fire engine houses in the Fifth, Eighth and Ninth wards.

In reference to the location of a fire alarm box on the corner of Fulton Wayne streets we report adverse.

Catarrh to Consumption.

Cattarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all advertised remedies. They become resigned to a life of misery rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and tasting so affected as to be useless. the uvula so elongated, the throat so inflamed and irritated as to produce a constant add distressing cough.

Sanford's Radical Cure meets every phrase of Cattarh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving permanent in curing, safe, economical and never-failing

A Wedding Under Difficulties.

The Franco-German war in 1870 brought about the reform in war correspondence. At the commencement of hostilities I was at Spicteren, a small town on the border of those two countries. The town was held by a small body of German soldiers, and on the neighboring heights was a large army of Frenchmen. In case they attacked the town we had determined to run. There is the comical as well as the tragic side always in war, and both these elements we experienced at Spicteren. A young German girl had come to say good by to her lover, a sergeant in the small detachment. Some of us conceived the idea that they should be married. Leave of absence was applied for for the soldier and granted on condition that at the first sound of the alarm he should be back at his post.

The ceremony commenced, and just as the clergyman came to the important part the bugle sounded the alarm. The French had commenced the attack. Hastily buckling on his belt the soldier ran to his post. Shot and shell burst over the town and one crashed into the kitchen stove and destroyed the wedding breakfast. We all hastily retired to another town a few miles off. That night was still again, and we determined not to be done out of our wedding, so we found the soldier and girl, and next day they were married. Next day the battle was renewed and the French were repulsed. Wandering over the field among the killed and trying to assist the wounded, I came across the bridegroom, stone dead. He was shot through the throat. In his hand he held a picture of his young bride, stained with his life's blood.—London Cor. New York Mail and Express.

A Curious Freak of Nature.

In the early history of southwestern Pennsylvania, in Somerset county, and not far from the Maryland line, an emigrant pitched his tent one night on the banks of the Turkeyfoot river, a tributary of the Youghiogheny, a beautiful mountain stream. The occurrence was early in the present century and was not an uncommon affair, but what followed in the long years that have since passed is the wonder and admiration of all who have beheld it.

The family in question was doubtless in search of a suitable site for a future home, and dreamed of no ill ere the time of that encampment. During their temporary halt one of their dear children was stricken down and buried in a lonely and uninhabited spot in the little valley. It is supposed they (the parents) planted six small yellow poplars—three on each side of the grave—to make the resting place of their darling child. Years passed and the poplars grew, and to-day they may be seen by the traveler as one undivided and solid trunk to the height of about seven feet, where they divide and are known for miles around as "The Six Poplars." These bodies are of nearly equal size, being each about two feet in diameter and about 100 feet to the lowest limbs, straight and clear of knots. In the vacuum at the place of separation there remains a rude stone, which marks the date of burial and the name of deceased. The land has been cleared of other timber, but that tree—or trees—stands alone some distance from any habitation.—Albert Cotton in Waterloo News.

The Unseen Forces of Nature.

Nature is ever undoing what she has already done, ever pulling her own work to pieces, as though dissatisfied with it, and wishing to build it up anew. She brings flowers, trees, men and women into existence, tends them with loving care, brings them to maturity, and consigns them to decay. The sun rises to the zenith, only to sink again beneath the horizon. Winter melts into spring, and spring into summer; but summer passes into autumn, and autumn into winter again. And so it is with greater things as well. The earth upon which we live had its beginning; can we doubt that it also must meet its end? Even as we pass our little day upon it we can see it change before our eyes, viewing, as it were, but one short scene in the mighty drama upon which the curtain must fall at last. Forces, animate and inanimate, are ever at work—above, below and around us. Islands are raised from the sea; mountains open and belch forth their fiery torrents upon the country for miles around; floods perform their work of destruction; glaciers move slowly onward, and sweep hamlets and villages away. And the unseen forces of nature are working as surely and as steadily as the seen. That "we die daily" is no mere figure of speech; at every breath we cast off part of our substance, effete matter from which the life has departed. And the earth dies daily, too.—Theodore Wood in Sunday Magazine.

A Stem Winder.

Stiggins was passing a watchmaker's establishment, and looking in at the window he noticed a very pretty girl at the counter.

"Ha!" he soliloquized. "I'll go in and take a look at her under some pretext or other."

He entered, and was waited on by the young lady's father.

"What can I do for you?"

"I want to get a key for my watch," he stammered, fastening his eyes on the young lady.

"Let me see your watch," said the watchmaker.

As if in a dream he took out his watch. The watchmaker examined it and said, with surprise:

"Why, your watch is a stem winder."

He doesn't remember how he got out, but he does remember that the young lady laughed.—Texas Siftings.

Books and Experience.

It is not what a man has seen but what he has read that makes him learned. It is better to know one great mind than it is to visit three great countries. The wisdom we get from books broadens the mind; the experience we derive from travel sharpens the wits.—Arkansaw Traveler.

The peculiar purifying and building up powers of Hood's Sarsaparila, make it the very best medicine to take at this season.

A QUESTION ABOUT

Brown's Iron Bitters

ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found. BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by *men* the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In *women* the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Seven Cuticura Boys

These seven beautiful boys owe their beauty of skin, luxuriance of hair, purity of blood, and freedom from hereditary taint or humors to the celebrated Cuticura Remedies.

Thousands of children are born into the world every day with some eczematous affection, such as milk crust, scall head, scuff or dandruff, sure to develop into an agonizing eczema, the itching, burning and disfiguration of which make life a prolonged torture unless properly treated.

A warm bath with Cuticura Soap, an exquisite skin beautifier, and a single application of Cuticura, the great skin cure, with a little Cuticura Resolvent, the new blood purifier, is often sufficient to arrest the progress of the disease and point to a speedy and permanent cure.

Your most valuable Cuticura Remedies have done my child so much good that I feel like saying this for the benefit of those who are troubled with skin disease. My little girl was troubled with eczema, and I tried several doctors and medicines, but did not do her any good until I used the Cuticura Remedies, which speedily cured her, for which I owe you many thanks and many nights of rest.

BABY'S Skin and scalp preserved and beautified by Cuticura Medicated Soap.

Our oldest child, now six years of age, when an infant six months old, was attacked with a virulent, malignant disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticura Remedies. The effect was simply marvellous, In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion, your valuable remedies saved his life, and today he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred. GEO. B. SMITH.

One year ago the Cuticura and Soap cured a little girl in our house of the worst sore head we ever saw, and the Resolvent and Cuticura are now curing a young gentleman of a sore leg, while the physicians are trying to have it amputated. It will save his leg.

And the brooklets purl and sigh;
Hush your laughter, put on mourning,
For the ice cream joke is nigh.
—*O. L. Perry, Bicyclist.*

In 1836 Andrew B. Young entered a tract of land in Steuben county, near Pleasant lake, and last week he died upon the same piece of land, it having remained in his possession the entire fifty-one years. It is said to be the only piece of land in that county that has not changed hands one or more times.

The aggregate movement of all through east bound tonnage forwarded from Chicago last week was 22,822 tons, of which close to 18,000 tons was represented by flour, grain and provisions, the Pittsburg and Fort Wayne road carried the biggest tonnage of all, 6,605 tons; the Nickel Plate carried 2,965 tons,

The Nickel Plate road has a large force of men and several construction trains in service on the Indiana division, grading and graveling it, and putting in some twenty-five miles of side track. This supports the statements that the road is to be put in good order, and that through passenger as well as freight trains are to be run over it.

Officers Humbrecht and O'Connell raided Pete Koehlinger's boarding house joint last night and arrested Alex Lalande and Joseph Kontlivre, two Frenchmen, who were found in company with two women who call themselves Mollie Adams and Mollie Rhodes. The party put up $72 and the amount was forfeited at the police court this morning.

This telegram sent out from Pittsburg yesterday will startle railroad men: "T. J. Scanlon, a freight brakeman on the Fort Wayne railroad, was arrested today on a charge of robbing freight trains. This is the first arrest made outside of the wholesale arrests on the Pan Handle. Others will follow, however, as it is stated that the Pennsylvania company has evidence implicating a number of employes on their various lines."

George P. Rowell & Co.'s new edition of the American Newspaper Directory, to be published on May 2, will show that the number of newspapers published in the United States, territories (including Alaska) and Canada is 15,420, an increase of 581 in one year. The growth of newspapers in some of the western states is remarkable. In Kansas the increase is 89, and in Nebraska 64, while Pennsylvania shows a smaller advance of 34 and Ohio 30. Pennsylvania exhibits the largest increase in dailies, 17; Kansas in weeklies, 81, and New York in monthlies, 42. Seven states show a decrease, the most prominent instances being New Hampshire and Virginia, 6 each.

The members of Fort Wayne commandery, Knights Templar, take great interest in the grand conclave now progressing at Indianapolis. It will satisfy them to know that the principal feature of yesterday afternoon's business was the address of Grand Commander Patrick. It showed that the past year had been one of prosperity to the order and that peace and harmony prevailed throughout the jurisdiction. During the year thirty-six knights have died. The statistics of the subordinate commanderies in the state for the year ending December 31, 1886, show: Total number knighted, re-instated and affiliated, 223; number died, demitted, suspended and expelled, 147: net gain of 75; total membership, 2,590. The grand commander recommended that the inspection of commanderies by a competent sir knight be made annually instead of triennially.

A plat of Beck's addition, in Bloomingdale, was filed with the county auditor to-day. It contains twenty-one lots and was surveyed by Mr. O. B. Wiley.

Mr. Henry Colerick has a bright faced, handsome young counsellor at his house and is immeasurably proud of his ten pound cherub. THE SENTINEL sends congratulations to its friend, Mr. Colerick.

Brother Theophilus, sacristan of the Cathedral, was presented last night by the members of St, Mary's parish with a beautiful silver watch. The presentation took place at the brother's residence, on Clinton street.

There are now 208 telephones in use in this city and new instruments are being put in at the rate of six a day under the new contract system, where subscribers purchase so many tickets each quarter. The company will issue a new catalogue in a few days.

Since the introduction of the big Jack engines on the Pittsburg road, two men have been employed to fire them. This morning an order went into effect limiting the firemen to one for each engine. The locomotives haul huge trains and it is doubtful if one man can endure the task of keeping steam up.

Building permits have been granted to C. M. Jacobs, to erect a two story brick house on Rockhill and Nelson's addition, to cost $3,000; to Fred J. Schwabe, to build a one story frame house on lot 46, Chute's homestead, to cost $500; to Wm. Killan, to put up an addition to his house on lot 16, Lillie's addition, to cost $115, and to Mary Diebold, to build a one story frame house on lot 228, Rockhill's addition, to cost $550.

Councilman Jack Kensill, although a republican, is not afraid to speak his mind to the dictators of his own party. The republican press here have been clamoring lately for a "higher type" of manhood in the city offices and a "more intelligent," "college-bred" council. Mr. Kensill directs the attention of republican critics to the fact that the tax levy is lower, the property valuation fairer and the amount of taxes collected less than when lawyers and statesmen filled the council and other offices. The debt is also lower, the city on a cash basis with a surplus in the treasury, and in better shape than it ever was. Mr. Kensill recognizes the necessity of intelligence, good sense and ability in the conduct of public affairs, but feels that it is as safe to explore for the qualifications among the general people as it is in the richer fields. He believes in letting well enough alone and honestly appreciating men who have been tried and not found wanting.

THE STUDIOUS MAN.

Out through the gates of Ispahan
One morning rode a studious man.
"Oh, whither bound? a traveler cried,
Who rested by a fountain side.
"I go to seek," replied the sage,
"The greatest wonder of the age."
"Then from your saddle now descend
And call your journey at an end,
For here within this sack I hold
The greatest wonder bought or sold."
And stooping down, the speaker drew
A cake of IVORY SOAP in view.
"No alkali this soap contains,
It leaves the lace and takes the stains;
It comes from oils, sweet as the rose
That in the palace garden grows;
It floats like cork upon the wave;
With this we may both wash and shave—"
Enough, enough!" the student cried;
"You've saved me from a longer ride,"
And turning round his wisdom showed,
For back to Ispahan he rode.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Mr. Tresselt has been too hastily criticised.

He spent $2,000,000 in developing these industries, and has made more than $250,000 a year out of each of them. RESERVOIR RIOTS.

The Paulding County Dynamiters are Doing Their Work in Sight of the Militia.

CINCINNATI, April 27.—News from the disturbance at the Paulding reservoir this morning indicate no material change in the situation. At last accounts there had been no conflict between the troops and the men engaged in destroying the public works.

The *Times-Star* special from the Paulding county, Ohio, disturbance, says: "The depredations of Monday night have continued on a smaller scale, almost under the noses of the militia. There are only three companies of militia, who have to guard several miles of the reservoir bank. The damage having been done, there is no apprehension of an outbreak until the work of repairing begins. To-day Chief Engineer Bostello arrived with Wm. Hahn, a member of the board of public works, joining Wm. Flickenger, who lives here. They will arrange for immediate repairs and will also proceed to ferret out the conspirators who wrecked the reservoir. An ex-member of the legislature is reported as aiding in the destruction on Monday. It is doubtful if any one can be convicted in Paulding county."

A MEXICAN BONANZA.

A Party of Prospectors Find the Gold Fields of the Jesuit Fathers.

ST LOUIS, April 27.—A special dispatch from the City of Mexico, triumphantly announces the discovery of two of the seven lost Mexican bonanzas, by an American party of prospectors. They were worked up to the middle of the last century. The Indians then swept over Northern Mexico and all the miners were driven out, and all of the records lost. Recently Lieutenant Kipper, formerly of the United States army, W. K. Glenn, of Illinois; Capt. Allen, and J. McIntyre, of Chicago, went out on a surveying expedition in the interest of the Sanora land company and in an old chapel, found maps and other data. Search was begun and the great placer field has been located where the Jesuit fathers of 200 years ago found fortunes for the church.

The indications are that this will be the most successful encampment ever held by the department. Five hundred delegates are present and the number will be increased to 700 by evening. All of the 637 posts in the state are to be represented.

ALL FOR THE ORPHANS.

A Great Meeting at Library Hall to Arrange for the Forthcoming Fair.

The four great Catholic congregations of this city were largely represented at Library hall last night. The assembly was called to organize for the forthcoming orphans' fair, and the best possible spirit prevailed. The work of the meeting was auspicious and can best be surmised in the selection of the following officers and general committee:

K. Baker, president.
H. C. Graffe, vice-president.
John B. Monning, secretary.
W. P. Breen, assistant secretary.
Joseph V. Fox, treasurer.

GENERAL COMMITTEE.

Rev. J. H. Brammer, Rev. J. F. Lang, P. S. O'Rourke, H. C. Graffe, K. Baker, A. C. Trentman, George Ouncok, Louis Jocquel, Joseph Mommer, jr., George P. Gordon, Frank Wolke, W. P. Breen, Ed Golden, R. W. T. DeWald, John Muldoon, Jos. Littot, Frank McBennett, C. Offenloch, B. Roth, A. J. Moynihan, Wm. Kaough, Jas. Fox, Dr. J. M. Dinnen, Jno. Brossard, Alex Spericsen, Jos. Pierre, Louis Goecke, A. Kalbacher, H. C. Berghoff, Geo. Jacuby, S. Wigant, O. Nichter, M. Nelligan, Jno. Snotzer, R. Bosseman, J. B. Monning, D. Monahan, Jno. Mohr, jr., B. Reuben, Jos. Fox, K. Baker, Louis Brames, Jos. Stein, Jos. Loos, jr.

The work of arranging the select and sub committees now progresses and everything points to the most successful fair and festival ever recorded.

A happy feature is the liberal feeling bestowed on the project by non-Catholics and it shows they appreciate worthy charity whenever and wherever bestowed.

The Schnaebel's Affair

PARIS, April 27.—From the statement made here, it is believed that Germany desires to expedite an adjustment of the Schnaebel's affair and that arrangements are progressing favorably at Berlin, for a prompt and satisfactory settlement, which may render the dispatch of the German documents in the case to Paris unnecessary. There was a better feeling on the bourse at the close, in consequence of rumors that Prince Bismarck had consented to parole Schnaebel.

William Fleming, of Fort Wayne, ex-treasurer of state, has a large interest in this syndicate, which will net the owners over $30,000 on a ten-days' investment. Ex-Auditor James H. In affirming the decision of Mr. Samuel L. Morris, as special judge, in the Sonvy-Shurick case, Judge Mitchell holds; "Clearing land in the absence of words of limitation, means removing therefrom all the timber of every size, but does not include taking out the stumps. The contract in this case in express terms and without any limitations required appellant to clear the land. Parol evidence was not admissible to prove a usage inconsistent with the express terms of the contract.

As a result of the conference held between General Superintendent Wade and General Passenger Agent Snow, of the Wabash, and Superintendent Brown, of the Michigan Central, at Toledo, it was decided to give the Wabash sleepers, which have heretofore been given to the Lake Shore at that point, to the Michigan Central. Under present arrangements the sleeping car from St. Louis over the Wabash will exchange there and go over the Michigan Central to Detroit, thence to New York via Niagara Falls. The sleeper from St. Louis to Boston will follow the same route as far as Niagara. It is understood that the cause of the change was a disposition on the part of the Lake Shore to discriminate against the Wabash wherever possible. The change in route will be a great accommodation to eastern travelers.

DECORATION DAY.

The Unique Order Issued for Observance by Commander-in-Chief Fairchild.

Sion S. Bass and Anthony Wayne posts, G. A. R., of this city, have received the following order outlining the observance of Decoration day, May 30:

NATIONAL HEADQUARTERS,
GRAND ARMY OF THE REPUBLIC,
MADISON, Wis., April 15, '87.

[General Orders No. 11.]

Nineteen years ago the then commander-in-chief of the Grand Army of the Republic, in general orders, set apart the 30th day of May and suggested it be consecrated to the memory of the fallen soldiers of the nation.

This being the first memorial day occurring since his death, the commander-in-chief asks that the eloquent and appropriate words of general order No. 11, 1868, uttered by that illustrious soldier and beloved comrade, John A. Logan, be again taken as inspiration and guidance for the 30th day of May 1887.

HEADQUARTERS GRAND ARMY
OF THE REPUBLIC,
WASHINGTON, D. C., May 5, '68.

[General Orders No. 11.]

1. The 30th day of May, 1868, is designated for the purpose of strewing with flowers or otherwise decorating the graves of comrades who died in the defense of their country during the late rebellion, and whose bodies now lie in almost every city, village and hamlet churchyard in the land. In this observance no form of ceremony is prescribed, but posts and comrades will, in their own way, arrange such fitting services and testimonials of respect as circumstances may permit.

We are organized, comrades, as our regulations tell us, for the purpose; among other things, "of preserving and strengthening those kind and fraternal feelings which bound together the soldiers, sailors and marines who united to suppress the late rebellion." What can aid more to assure this result than cherishing tenderly the memory of our heroic dead, who made their breasts a barricade between our country and their foe? Their soldier lives were the reveille of freedom to a race in chains and their death the tattoo of the rebellious tyranny in arms. We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the nation can add to their adornment and security is but a fitting tribute to the memory of her slain defenders. Let no wanton foot tread rudely on such hallowed ground. Let pleasant paths invite the coming and going of reverent visitors and fond mourners. Let no vandalism or avarice or neglect, no ravages of time testify to the present or to the coming generations that we have forgotten as a people the cost of a free and undivided republic.

If other eyes grow dull and other hands slack, and other hearts cold in the solemn trust, ours shall keep it well as long as the light and warmth of life remain to us.

Let us, then, at the time appointed, gather around their sacred remains and garland the passionless mounds above them with the choicest flowers of spring time; let us raise above them the dear old flag they saved from dishonor; let us in this solemn presence renew our pledges to aid and assist those whom they have left among us a sacred charge upon a nation's gratitude—the soldier's and sailor's widow an orphan.

III. Department commanders will use every effort to make this order effective.

By command of John A. Logan Commander-in-chief.
N. P. CHIPMAN, Adjutant General.
By command of Lucius Fairchild, Commander-in-chief.
E. B. GRAY, Adjutant General.

BOOM ECHOES.

Late News About the Natural Gas Craze in Indiana.

Royal Centre is arranging to begin in a few days to sink a well.

Greencastle will begin to search for gas this week; also Salem.

Fort Wayne will have gas and the city should help to find it.

One of the of the Noblesville wells emits jets of oil occasionally.

Goshen has begun to dig for gas and expects to find it in a week.

The Pendleton well was "shot" Saturday night with good results.

The drill in the new gas well encounters obstructions and goes down slowly.

Shoals will spend $5,000 and drill three thousand feet, if necessary, to find gas.

New Castle drilled 1,294 feet without striking gas. The "duster" has been abandoned but two other holes will be drilled.

Will the council make an appropriation to bore for gas? Every citizen of Fort Wayne would approve such a course.

A rich flow was struck at Fairmont Saturday on J. H. Winslow's farm at a depth of 950 feet, with 450 pounds pressure, and a blaze thirty feet high.

The Laporte exploring company, headed by George W. Arnold, and the Martinsville natural gas company, led by E. F. Branch, have been incorporated.

Plainfield is organizing to bore for gas. The Indianapolis company has been asked to sink a well there, and, in case it does not do so, a local company will do the work.

Trenton rock has at length been found in the Bridgeport well. The unfruitful result was fully anticipated for some days. The Trenton at Bridgeport evidently lies in the gutter, and that is where the gas is not found.

At Portland, the Grand Rapids and Indiana railroad company has purchased additional ground. The new opera house, Odd Fellows' block and a business block, all under contract, will use one million brick. Dwellings are being built by the hundred.

The Standard Oil company perfected an organization under the laws of Indiana with a capital stock of $1,000,000, yesterday. The purpose of the organization is to pipe and furnish to citizens of Indianapolis natural gas for heating and manufacturing purposes.

The Wabash city council has appropriated $3,000 to aid in the investigation of natural gas territory. Wabash is thoroughly enthused on this question, and the failure of well No. 1 has only increased the interest. If gas is not found adjacent to the city a well will be sunk about twelve miles south of town, where there is a reasonable assurance of finding it, and a pipe line laid.

Can't Make Anything Like It.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.

No other remedy within my knowledge can fill its place.

A Hearty Greeting.

The friends and members of the M. E. church at Maysville assembled last Friday afternoon April 22, at the parsonage to welcome their pastor, Rev. J. A. Beaty and wife, to another year's labor among them. On their arrival many hearty greetings were heard and a long table stood heavily laden with a bounteous repast. A part of the house had been nicely papered, and a most beautiful and costly hanging lamp hung from the parlor ceiling to greet their gaze. The evening was pleasantly spent in song and social chat.

MAJOR GORDON!

The Distinguished Indiana Soldier is Numbered With the Dead.

INDIANAPOLIS, April 27.—Major Jonathan W. Gordon, surrounded by his wife and children, is breathing his last. For almost half a century he has been more or less prominent in Indiana affairs. He figured in the Mexican war and also in the late war. He was one of the best jury lawyers in the state, and as a criminal lawyer had but few equals. He was born in Washington county, Pennsylvania, August, 1820, and came to Indiana in 1835. He was twice elected speaker of the house of the Indiana legislature.

REPORT OF COMMITTEE ON ASSESSMENT AND TAXES.

To His Honor the Mayor and Common Council.

Your committee on assessment and taxes, to whom was referred the petition of W. H. Jones, praying for a refunder of $4 for taxes illegally collected for improvements on lot No. 175, north side addition, for 1884 and 1885, respectfully report that we have examined the premises and find that there was no improvement on said lot; we therefore recommend that the clerk be instructed to issue an order for $3 in favor of said W. REPORT OF COMMITTEE ON FIRE.

To His Honor the Mayor and Common Council.

We your committee on fire to whom was referred the resolution of Councilman Racine for the location of a fire engine house site in the Ninth ward, respectfully report that we have carefully examined and considered the matter. We find that Ex-Mayor Zollinger frequently recommended a distribution of the fire department apparatus; likewise the chief of the fire department. Mayor Muhler made a similar recommendation in his last inaugural address. We believe the rapid growth of the city and the location of large manufactory establishments in the different wards of the city demand such distribution. We therefore report a resolution upon the subject and ask its passage, recommending that this committee and fire chief report to this council at its next meeting a proper location for fire engine houses in the Fifth, Eighth and Ninth wards.

In reference to the location of a fire alarm box on the corner of Fulton Wayne streets we report adverse.

W. Doehrman.
Peter J. Scheid.

To the Honorable the Mayor and Common Council.

We your committee on fire with city attorney added, herewith report a proposition from Dr. J. Walker offering to settle claim against city for infringement and royalty on fire engine house appliances for which he claims to hold letters of patent. We respectfully recommend that said proposition be referred to the mayor, city attorney and chief of fire.

W. Doehrman.
Peter J Scheid.
Committee.

Henry Colerick, City Attorney.

On motion of Mr. Michael the above report was concurred in.

To the Mayor and Common Council of the City of Fort Wayne.

With a view to avoid litigation, Dr. Walker has authorized us to compromise his claim against the city of Fort Wayne for the sum of $1,500. This offer which we now make, he instructs us to say is final on his part, and on condition that it be promptly accepted. If accepted a proper release for damages for past use of his apparatus and proper conveyance of the right for their future use, as proposed in the claim filed by him with the city, will be executed at once. Other cities in the state, using but part of the patents and for a much shorter time than Fort Wayne has been using all of them, have settled with Dr. Walker on terms more favorable than those above proposed.

Hoping that we may have a speedy acceptance or injunction of the proposal herein we are,
Very Respectfully,
Morris & Barrett,
Attorneys for Dr. Walker.

"While suffering from a severe bilious attack in March, 1883, a friend in Peoria, Ill., recommended Hood's Sarsaparilla. I tried the remedy, and was permanently cured." J. A. SHEPARD, travelling agent for Devoe & Co., Fulton Street, N. Y.

SKIN AND SCALP

Cleansed, Purified and Beautified by the Cuticura Remedies.

For cleansing the Skin and Scalp of Disfiguring Humors, for allaying Itching Burning and Inflammation, for curing the first symptoms of Eczema, Psoriasis, Milk Crust, Scaly Head, Scrofula, and other Inherited Skin and Blood Diseases, Cuticura, the great Skin Cure, and Cuticura Soap, an exquisite Skin Beautifier, externally, and Cuticura Resolvent, the new Blood Purifier, internally, are infallible.

A Complete Cure.

I have suffered all my life with skin diseases of different kinds and have never found permanent relief, until, by the advice of a lady friend, I used your valuable Cuticura Remedies. I gave them a thorough trial, using six bottles of the Cuticura Resolvent, two boxes of Cuticura and seven cakes of Cuticura Soap, and the result was just what I had been told it would be—a complete cure.

I was troubled with Salt Rheum for a number of years, so that the skin entirely came off one of my hands from the finger tips to the wrist. I tried remedies and doctors' prescriptions to no purpose until I commenced taking Cuticura Remedies, and now I am entirely cured.

Catarrh to Consumption.

Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all advertised remedies. They become resigned to a life of misery rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and tasting so affected as to be useless, the uvula so elongated, the throat so inflamed and irritated as to produce a constant and distressing cough.

Sanford's Radical Cure meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never-failing.

Each package contains one bottle of the Radical Cure, one box Catarrhal Solvent, and an improved Inhaler, with treatise: price, $1. Potter Drug & Chemical Co., Boston.

KIDNEY PAINS,

A Wedding Under Difficulties.

The Franco-German war in 1870 brought about the reform in war correspondence. At the commencement of hostilities I was at Spicteren, a small town on the border of those two countries. The town was held by a small body of German soldiers, and on the neighboring heights was a large army of Frenchmen. In case they attacked the town we had determined to run. There is the comical as well as the tragic side always in war, and both these elements we experienced at Spicteren. A young German girl had come to say good by to her lover, a sergeant in the small detachment. Some of us conceived the idea that they should be married. Leave of absence was applied for for the soldier and granted on condition that at the first sound of the alarm he should be back at his post.

The ceremony commenced, and just as the clergyman came to the important part the bugle sounded the alarm. The French had commenced the attack. Hastily buckling on his belt the soldier ran to his post. Shot and shell burst over the town and one crashed into the kitchen stove and destroyed the wedding breakfast. We all hastily retired to another town a few miles off. That night was still again, and we determined not to be done out of our wedding, so we found the soldier and girl, and next day they were married. Next day the battle was renewed and the French were repulsed. Wandering over the field among the killed and trying to assist the wounded, I came across the bridegroom, stone dead. He was shot through the throat. In his hand he held a picture of his young bride, stained with his life's blood.—London Cor. New York Mail and Express.

A Curious Freak of Nature.

In the early history of southwestern Pennsylvania, in Somerset county, and not far from the Maryland line, an emigrant pitched his tent one night on the banks of the Turkeyfoot river, a tributary of the Youghiogheny, a beautiful mountain stream. The occurrence was early in the present century and was not an uncommon affair, but what followed in the long years that have since passed is the wonder and admiration of all who have beheld it.

The family in question was doubtless in search of a suitable site for a future home, and dreamed of no ill ere the time of that encampment. During their temporary halt one of their dear children was stricken down and buried in a lonely and uninhabited spot in the little valley. It is supposed they (the parents) planted six small yellow poplars—three on each side of the grave—to make the resting place of their darling child. Years passed and the poplars grew, and to-day they may be seen by the traveler as one undivided and solid trunk to the height of about seven feet, where they divide and are known for miles around as "The Six Poplars." These bodies are of nearly equal size, being each about two feet in diameter and about 100 feet to the lowest limbs, straight and clear of knots. In the vacuum at the place of separation there remains a rude stone, which marks the date of burial and the name of deceased. The land has been cleared of other timber, but that tree—or trees—stands alone some distance from any habitation.—Albert Cotton in Waterloo News.

The Unseen Forces of Nature.

Nature is ever undoing what she has already done, ever pulling her own work to pieces, as though dissatisfied with it, and wishing to build it up anew. She brings flowers, trees, men and women into existence, tends them with loving care, brings them to maturity, and consigns them to decay. The sun rises to the zenith, only to sink again beneath the horizon. Winter melts into spring, and spring into summer; but summer passes into autumn, and autumn into winter again. And so it is with greater things as well. The earth upon which we live had its beginning; can we doubt that it also must meet its end? Even as we pass our little day upon it we can see it change before our eyes, viewing, as it were, but one short scene in the mighty drama upon which the curtain must fall at last. Forces, animate and inanimate, are ever at work—above, below and around us. Islands are raised from the sea; mountains open and belch forth their fiery torrents upon the country for miles around; floods perform their work of destruction; glaciers move slowly onward, and sweep hamlets and villages away. And the unseen forces of nature are working as surely and as steadily as the seen. That "we die daily" is no mere figure of speech; at every breath we cast off part of our substance, effete matter from which the life has departed. And the earth dies daily, too.—Theodore Wood in Sunday Magazine.

A Stem Winder.

Sliggins was passing a watchmaker's establishment, and looking in at the window he noticed a very pretty girl at the counter.

"Ha!" he soliloquized, "I'll go in and take a look at her under some pretext or other."

He entered, and was waited on by the young lady's father.

"What can I do for you?"

"I want to get a key for my watch," he stammered, fastening his eyes on the young lady.

"Let me see your watch," said the watchmaker.

As if in a dream he took out his watch. The watchmaker examined it and said, with surprise:

"Why, your watch is a stem winder."

He doesn't remember how he got out, but he does remember that the young lady laughed.—Texas Siftings.

Books and Experience.

It is not what a man has seen but what he has read that makes him learned. It is better to know one great mind than it is to visit three great countries. The wisdom we get from books broadens the mind; the experience we derive from travel sharpens the wits.—Arkansaw Traveler.

The peculiar purifying and building up powers of Hood's Sarsaparilla, make it the very best medicine to take at this season.

A QUESTION ABOUT

Brown's Iron Bitters

ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Seven Cuticura Boys

These seven beautiful boys owe their beauty of skin, luxuriance of hair, purity of blood, and freedom from hereditary taint or humors to the celebrated Cuticura Remedies.

Thousands of children are born into the world every day with some eczematous affection, such as milk crust, scall head, scurf or dandruff, sure to develop into an agonizing eczema, the itching, burning and disfiguration of which make life a prolonged torture unless properly treated.

A warm bath with Cuticura Soap, an exquisite skin beautifier, and a single application of Cuticura, the great skin cure, with a little Cuticura Resolvent, the new blood purifier, is often sufficient to arrest the progress of the disease and point to a speedy and permanent cure.

Your most valuable Cuticura Remedies have done my child so much good that I feel like saying this for the benefit of those who are troubled with skin disease. My little girl was troubled with eczema, and I tried several doctors and medicines, but did not do her any good until I used the Cuticura Remedies, which speedily cured her, for which I owe you many thanks and many nights of rest.

BABY'S Skin and scalp preserved and beautified by Cuticura Medicated Soap.

Our oldest child, now six years of age, when an infant six months old, was attacked with a virulent, malignant disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticura Remedies. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion, your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

Henry Auth has resigned his position at Emil Haberkorn's saloon. Mr. Auth will establish a business for himself.

The new store room of Rudolph Seimon on Calhoun street, will shortly be occupied by A. W. Knabe, of Richmond, Indiana.

Samuel Hungerford, formerly clerk of the Robinson house, is now representing a Cincinnati coffee and spice house on the road.

Mr. A. D. Cressler has returned from the east bringing with him a handsome team of bays and it will hustle the best of roadsters to throw dust in their face.

Portland republicans nominated the following ticket: Theodore Bailey for mayor; E. M. Crowell for treasurer; J. M. Beelman clerk and A. H. Stevens marshal.

A course of domestic economy, under the direction of Mrs. Emma Ewing, will be added to the course of studies at Purdue this year. Miss Ewing lectured in this city last winter.

Professor F. Louis Schultz, a former Fort Wayne resident and a very clever violinist, is a member of the Detroit String Quartett which will be heard at the Temple on Friday evening.

On the hills the lambs are sporting;
And the brooklets purl and sigh;
Hush your laughter, put on mourning,
For the ice cream joke is nigh.
—*O. L. Perry, Bicyclist.*

In 1836 Andrew B. Young entered a tract of land in Steuben county, near Pleasant lake, and last week he died upon the same piece of land, it having remained in his possession the entire fifty-one years. It is said to be the only piece of land in that county that has not changed hands one or more times.

The aggregate movement of all through east bound tonnage forwarded from Chicago last week was 22,822 tons, of which close to 18,000 tons was represented by flour, grain and provisions, the Pittsburg and Fort Wayne road carried the biggest tonnage of all, 6,665 tons; the Nickel Plate carried 2,965 tons.

The Nickel Plate road has a large force of men and several construction trains in service on the Indiana division, grading and graveling it, and putting in some twenty-five miles of side track. This supports the statements that the road is to be put in good order, and that through passenger as well as freight trains are to be run over it.

Officers Humbrecht and O'Connell raided Pete Koehlinger's boarding house joint last night and arrested Alex La lande and Joseph Kontlivre, two Frenchmen, who were found in company with two women who call themselves Mollie Adams and Mollie Rhodes. The party put up $72 and the amount was forfeited at the police court this morning.

This telegram sent out from Pittsburg yesterday will startle railroad men: "T. J. Scanlon, a freight brakeman on the Fort Wayne railroad, was arrested to-day on a charge of robbing freight trains. This is the first arrest made outside of the wholesale arrests on the Pan Handle. Others will follow, however, as it is stated that the Pennsylvania company has evidence implicating a number of employes on their various lines."

George P. Rowell & Co.'s new edition of the American Newspaper Directory, to be published on May 2, will show that the number of newspapers published in the United States, territories (including Alaska) and Canada is 15,420, an increase of 581 in one year. The growth of newspapers in some of the western states is remarkable. In Kansas the increase is 89, and in Nebraska 64, while Pennsylvania shows a smaller advance of 34 and Ohio 30. Pennsylvania exhibits the largest increase in dailies, 17; Kansas in weeklies, 81, and New York in monthlies, 42. Seven states show a decrease, the most prominent instances being New Hampshire and Virginia, 6 each.

The members of Fort Wayne commandery, Knights Templar, take great interest in the grand conclave now progressing at Indianapolis. It will satisfy them to know that the principal feature of yesterday afternoon's business was the address of Grand Commander Patrick. It showed that the past year had been one of prosperity to the order and that peace and harmony prevailed throughout the jurisdiction. During the year thirty-six knights have died. The statistics of the subordinate commanderies in the state for the year ending December 31, 1886, show: Total number knighted, re-instated and affiliated, 223; number died, demitted, suspended and expelled, 147; net gain of 76; total membership, 2,590. The grand commander recommended that the inspection of commanderies by a competent sir knight be made annually instead of triennially.

There are now 208 telephones in use in this city and new instruments are being put in at the rate of six a day under the new contract system, where subscribers purchase so many tickets each quarter. The company will issue a new catalogue in a few days.

Since the introduction of the big Jack engines on the Pittsburg road, two men have been employed to fire them. This morning an order went into effect limiting the firemen to one for each engine. The locomotives haul huge trains and it is doubtful if one man can endure the task of keeping steam up.

Building permits have been granted to C. M. Jacobs, to erect a two story brick house on Rockhill and Nelson's addition, to cost $3,000; to Fred J. Schwabe, to build a one story frame house on lot 46, Chute's homestead, to cost $500; to Wm. Killan, to put up an addition to his house on lot 16, Lillie's addition, to cost $115, and to Mary Diebold, to build a one story frame house on lot 228, Rockhill's addition, to cost $550.

Councilman Jack Kensill, although a republican, is not afraid to speak his mind to the dictators of his own party. The republican press here have been clamoring lately for a "higher type" of manhood in the city offices and a "more intelligent," "college-bred" council. Mr. Kensill directs the attention of republican critics to the fact that the tax levy is lower, the property valuation fairer and the amount of taxes collected less than when lawyers and statesmen filled the council and other offices. The debt is also lower, the city on a cash basis with a surplus in the treasury, and in better shape than it ever was. Mr. Kensill recognizes the necessity of intelligence, good sense and ability in the conduct of public affairs, but feels that it is as safe to explore for the qualifications among the general people as it is in the richer fields. He believes in letting well enough alone and honestly appreciating men who have been tried and not found wanting.

THE STUDIOUS MAN.

Out through the gates of Ispahan
One morning rode a studious man.
"Oh, whither bound? a traveler cried,
Who rested by a fountain side.
"I go to seek," replied the sage,
"The greatest wonder of the age."
"Then from your saddle now descend
And call your journey at an end,
For here within this sack I hold
The greatest wonder bought or sold."
And stooping down, the speaker drew
A cake of IVORY SOAP in view.
"No alkali this soap contains,
It leaves the lace and takes the stains;
It comes from oils, sweet as the rose
That in the palace garden grows;
It floats like cork upon the wave;
With this we may both wash and shave—"
Enough, enough!" the student cried;
"You've saved me from a longer ride,"
And turning round his wisdom showed,
For back to Ispahan he rode.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

There need be no concern about Mr. Christian Tresselt's democracy. He announced himself in the newspapers, over his own name, as a democratic candidate for councilman from the Second ward, subject to the decision of the democratic primary nominating election. He overlooked the meeting of the city central committee last Monday night, but soon after sent a written pledge of fealty to the party to Chairman Fred Boltz. Mr. Tresselt has been too hastily criticised.

He spent $2,000,000 in developing these industries, and has made more than $250,000 a year out of each of them. He says he never went in for anything in which he did not confidently see $250,000 a year.
